

Metal Detectorists Club Meeting.

The **Keystone Detectorists Club** (KDC) invites you.
Mark your calendars! Open to all. Let's meet and greet!

Sunday, November 15, 2026. 1:30 PM New location!!!

Location: River Park South, **110 Creek Bend Road**, Winnipeg

It's very close to the Perimeter, off of St. Anne's Rd.

Free entry to all. Parking is also free. Please park in the Visitor stalls.

This fall, we will again draw from our own members to share their favorite Metal Detecting stories with you.

Always present will be Robin Paul Pare of **O.K. John Metal Detectors** to assist you with all of your metal detecting needs and supplies. Bring your want list.

See: <https://okjohnmetaldetectors.com/about/>

You're welcome to attend whether you thought of trying metal detecting for a first time or are a well-seasoned veteran of the hobby. Parents bring your kids... Young or old, please do drop in. We will showcase a "Finds" table.

Coffee and refreshments will be available.

The idea is to spend a few hours for us to meet in a welcoming and informal setting and to make contact with and to create new and lasting friendships under the guides of our newly founded metal detecting club: **Keystone Detectorists Club** (KDC)

Let's share ideas, let's ask questions, and share information. Is anyone up for a group hunt this spring? We've acquired the "Land Owner Permission" to an exciting historic location, the site of the Principal Meridian near Headingley.

Please contact me if interested so that we can set up accordingly.
