

Metal Detectorists Club Meeting

The **Keystone Detectorists Club** (KDC) invites you.
Mark your calendars! Open to all. Let's meet and greet!

Sunday, April 19, 2026. 1:30 PM

Location: Brandtwood Estates at 685 St. Anne's Rd. Wpg.
Free entry and free parking is available but please do consider parking across the street at the strip mall that includes Dollarama and Subway.

This spring, instead of a Guest Speaker, we will draw from our own members to share their favorite Metal Detecting stories with you.

Also present will be Robin Paul Pare of **O.K. John Metal Detectors** to assist you with all of your metal detecting needs and supplies. Bring your want list.

See: <https://okjohnmetaldetectors.com/about/>

You're welcome to attend whether you thought of trying metal detecting for a first time or are a well-seasoned veteran of the hobby. Parents bring your kids... Young or old, please do drop in. We will provide a "Finds" table, along with coffee and refreshments.

The idea is to spend a few hours for all of us to meet in a welcoming and informal setting and to make contact with and to create new and lasting friendships under the guides of our newly founded metal detecting club: **Keystone Detectorists Club** (KDC)

Let's share ideas, let's ask questions, and share information. Is anyone up for a group hunt this spring? We've acquired a new "Land Owner Permission" for an exciting historic location. Also do keep in mind the seeded hunt at Bird Hill Provincial Park in fall.

Please contact me if interested so that we can set up accordingly.

Roger Fontaine
