

Metal Detectorists Get Together

Mark your calendars! Open to all. Let's meet and greet! Sunday afternoon.

December 3, 2023. Location: Brandtwood Estates at 685 St. Anne's Rd. Wpg.
From **2pm – 4pm**

Hi. My name is Roger Fontaine. I've been an active detectorist for 4 years now. During this time, I've met a number of other detectorists and I would like to provide an opportunity during this off season for all of us to meet and to make contact and to create new and lasting friendships.

You're welcome to attend whether you thought of trying metal detecting for a first time or are a well-seasoned veteran of the hobby. Parents bring your kids... Young or old, please do drop in.

The idea is to spend a few hours in a welcoming and informal setting to talk about this exciting hobby. Let's share ideas, let's ask questions and let's share information. Anyone up for a group hunt come spring?

I will provide a "Finds" table, along with coffee and refreshments.

Please consider contacting me if interested so that I can plan accordingly. And bring a friend or two along. Bring some of your favorite finds too. It's an open forum open to all.
